GENERAL SECRETARIAT

Dated 16th April 1947.

No. S. R. 3964—L. W. 212-46-2. Under Section 12 (4) of the Mysore Labour Act XIII of 1942, the Government of His Highness the Maharaja of Mysore are pleased to publish for general information the accompanying report of the Chief Conciliator in Mysore, Bangalore, in respect of the failure of conciliation proceedings in a dispute between the Mysore Paper Mills Labour Association, Bhadravathi and the Management of the said Mills in regard to four demands mentioned in the accompanying report made by the said Association.

7766 MOHAMED ISMAIL SHERIFF, *Genl. Secy.*

OFFICE OF THE CHIEF CONCILIATOR IN MYSORE, BANGALORE.

Notification dated 26th March 1947.

To

The Secretary to Government of Mysore,
General Department,
Bangalore.

Sir,

No. C. C. 16—46. I have the honour to make the following report under Section 12 (4) of the Mysore Labour Act, relating to a dispute between the Mysore Paper Mills Labour Association, Bhadravati, and the concerned Mills Management in regard to the following four demands asked for by the Association :—

(1) That the daily wages of all the workers of the Factory should be enhanced with effect from 1st July 1946 ;

(2) That the workers who are being supplied with boots twice a year should be supplied thrice a year in future ;

(3) That the workers working in Heat (Boiler, Soda recovery, Digesters) Sections should be given a heat allowance ; and

(4) That a creche should be opened for the benefit of the women workers.

2. The Secretary of the Labour Association gave to the concerned Mills Management a Notice of change, making the above four demands. As the Management could not agree to the demands and as the parties did not come to a settlement during the negotiations conducted by the Assistant Commissioner of Labour, Mysore Division, the Commissioner of Labour referred the case to this Office for initiating Conciliation Proceedings under Section 10 (3) of the Labour Act.

3. The case was accordingly registered and intimations to the parties were issued for hearing. I held Conciliation Proceedings at Bangalore on the 25th March 1947 and heard the case. The Management was represented by Mr. K. Umanatha Rao, General Manager ; while, on behalf of the Labour Association, were present, the following two office bearers :—

(i) Mr. Ahmed Sheriff, Vice-President,
(ii) Mr. K. Seshagiri Sastry, Secretary.

4. The Assistant Commissioner of Labour, Mysore Division (Mr. C. N. Nanjappa) was also present throughout the Conciliation Proceedings.

5. The demands were taken up one by one and discussed on both sides.

6. With regard to Demand No. (1) asking for increase in the daily wages for all the workers in the Factory, it was pointed out that the demand was vague and it was not clear whether it referred to basic wages or to increments. There was also no mention or indication as to the extent of increase desired in the daily wages. The Labour Association Secretary stated first that the demand referred to the question of raising the basic wages of all the labourers. He then explained that what the Association wanted was a uniform increase of the daily wages of all the workers by one anna per day per head, with effect from 1st July 1946.

7. The Management explained their position thus. It is usual to give increments once in two years. The last increment having been given on 1st July 1945, the matter could be taken up for consideration only on and after 1st July 1947. Further, the payments made to both skilled and unskilled labour compares favourably with wages paid to such labour not only in the Mysore State but also with that obtained in other Paper Mills, which have been in existence very much longer. General Manager pointed out (by reference to the Report published by the Government of India) that for example, the average wages of the workers in the Titaghar Paper Mills, was five annas ten pies, while that in the Mysore Paper Mills is nine annas and one pies, and that the Mysore Paper Mills are giving extra facilities (such as bonus) not given in other Paper Mills. He added that the demand for a general increase of the daily wages by one anna per head in the case of all workers of all the sections of the factory could not be agreed to, and that increase in wages could only be considered on the ground of efficiency, good attendance and conduct, etc., of each worker.

The Association representative next contended that increment in wages had been given every year since 1942 and it should be given for the year 1946 also. The Management refused it and explained that no increments were given in 1943 and that increments were given in 1945 as a special case and with the definite understanding that the next increment would be given only after July 1947, *i.e.* after two years, and that the Management were unable to agree to the revision of wages from 1st July 1946.

Finally, after further discussion, the Association representative, not being satisfied with the explanation given by the Management pressed the demand. The Management's representative regretted, it was not possible for the Management to accept the demand. So, there was no settlement possible in regard to this Demand No (1).

The next Demand No. 2, urging for the supply of boots thrice a year, was withdrawn by the Association Representatives.

Coming to the Demand No. 3, for grant of heat allowance in the Soda recovery plant and in the digesters and in boilers, the Management explained the position as follows :—

"That an additional wage of one anna per day is given to employees of Soda recovery section who work near the furnace and that this has been in practice since 1st July 1944 and it is not understood why a Notice of Change is given in this respect."

"In regard to boilers, there is automatic feeding of coal and it is not necessary to open the fire door and shovel coal as in other boilers; the Boiler House is facing East and in order to avoid too much draught of cold air, we have at the instance of employees walled up the front; and this clearly shows that they do not suffer for too much heat but want protection against cold.

"In regard to disgesters, we do one cook per shift and the man need operate valves for only one or two hours during the whole eight hours. In order, however, to minimise the heat of radiation, we have lagged one digestor and we shall be lagging 2 more shortly. We have also placed orders for man cooler fans for a constant flow of fresh air.

"We do not see any justification for allowance in digestors and boilers."

Further, the Management stated that such an allowance is not paid in any Factory.

The Association representative not being satisfied with the explanation of the Management pressed the demand. The Management regret, it is not possible to accept this demand for heat allowance in boilers and digestors. So, no settlement was possible between the parties in regard to this Demand No. 3.

The next and last Demand No. 4. for the setting up of a creche, the Association representative withdrew this demand, in the light of the Management's explanation and assurance that a creche will be opened immediately the room built for this purpose and used now for accommodating some of the labourers, on account of fire accident in the labour sheds is vacated.

All possible ways of settlement were explored, but the parties did not come to a settlement in regard to Demands Nos. 1 and 3, while Demands Nos. 2 and 4 were withdrawn.

Thus, of the four Demands, the two Demands Nos. 2 and 4 were withdrawn and the remaining two Demands Nos. 1 and 3 were pressed by the Association but were not accepted by the Management.

8. The conciliation in regard to these two Demands (*viz.*, 1 and 3) thus ended in failure, which I hereby report.

9. I request that this report may be published in the *Mysore Gazette* as required in sub-section (4) of Section 12 of the Mysore Labour Act.

I have the honour to be,
Sir,
Your most obedient servant,

7766 NAVANEETHAM, *Chief Conciliator.*

FINANCIAL SECRETARIAT

Dated 17th April 1947.

No. Fl. 7577—G. F. 228-46-3.
